DETAILED ACTION

1. Applicant's appeal brief for consideration of the final rejection of the last office action mailed on January 14, 2002 is persuasive and; therefore, the finality of that action is now hereby withdrawn.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated Healey (U. S. Patent 4,480,809).

As to claim 1, Healey discloses an audio-equipment (instrument equipment such as sonar, column 1, line 8) as shown in figures 1-2 comprising:

a housing (10-figure 1, column 2, lines 18);

an audio circuitry inherently to the sonar (not shown) installed within the housing;

and

a first protective bar (16, column 2, line 25) flexibly connected (34, column 2, line 59) to the housing (sidewall 24 of housing 10-see figure 1). The bar is protective because it protects the housing from impact from underside of the housing.

As to claim 2, Healey discloses the audio equipment as shown in figures 1-2 further comprising a handle (14, column 2, line 22) attached (see figure 1) to the first protective bar (16).

As to claim 3, Healey discloses the audio equipment as shown in figures 1-2 further comprising a connector assembly (34, column 2, line 59) connecting the first protective bar (16) to the housing (10).

As to claims 4 and 5, Healey discloses the equipment as shown in figures 1-2 wherein the connector assembly (34) comprises a flexible gasket (30-figure 2, column 2, line 49), said flexible gasket disposed between the first protection bar (16) and the housing (sidewall 24 of housing 10).

As to claim 6, Healey discloses the audio equipment as shown in figures 1-2 further comprising a second protective bar (16, column 2, line 25) flexibly connected to the housing (the other side of the housing 10, bracket 12 having two bars 16 connecting by ends of base 14).

Response to Arguments

4. Applicant's arguments with respect to claims 1-6 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Morgan, Andreaggi, Teti, Jr. et al., and Peroni disclose related art.
